There are many online poker rooms that are still accepting poker players in the United States. The UIGEA was a bill that restricts financial institutions from processing transactions for online poker. The bill that was passed in congress changed absolutely nothing for the individual player. There are still plenty of great sites that are up and running and available to poker players in the United States, New united States online poker rooms are popping up every day with great bonuses making it easy to get some extra cash on your first deposit. Use the following links below to claim your first deposit bonus at any of these poker rooms accepting players in the United States. All of the Poker Rooms below have methods that will allow you to immediately deposit money into your account using your credit card, phone bill, or a third party merchant. Credit card or Debit cards are the best and easiest way to deposit. Debit cards have a higher successful transaction percentage than credit cards do
