Pokerstars.com is one of the best poker sites for United States players, and they aren't afraid to tell you so themselves. There are many reasons that they fit the bill of the best, among them the incredibly fine tuned games and limits, their "award-winning" customer support, and their very easy deposit and quick-cash features. Likewise, Pokerstars.com is THE largest online poker room in the world, which means that you may find any type of game...no matter what type of player you are. Pokerstars.com offers nearly every variation of Poker, with no-limit Texas Hold'em games starting at \$.01 and \$.02 blinds and going all the way up to \$25 and \$50 blinds. Their limit hold'em games go from \$.02-.04 to \$200-400. Of course, their other games have similar limits; there's a game on PokerStars for everybody. And if you want to practice your skills and play for free, there are plenty of free role options on the table as well. In fact, every single real-money game has its own free-role equivalent, so feel free to practice and get ready for the real deal ahead of time. To pay or not to pay? That is the question. Concerning the customer service, they actually have 24/7 phone support available with multi-lingual reps from around the globe. Likewise, you can also customize all your visual gaming features from the table theme to your avatar's appearance. All in all, Pokerstars.com has all of the best features you would expect from the world's largest Poker site, and with a 100% bonus match on your deposit, exclusively from United States Poker Online, there's never been a better time to try your hand with double the money!
